## PROFESSIONAL SUMMARY

Results-driven **DevOps Engineer** with **2+ years** in DevOps and technical support roles, skilled in deployment troubleshooting, service-health monitoring, and incident triage on Linux and Docker. Built an end-to-end AWS EKS platform with Terraform, Jenkins, Helm, ArgoCD, Prometheus, and Grafana.

## TECHNICAL SKILLS

**Cloud & IaC:** AWS (EKS, ECR, IAM, VPC, S3), Terraform (S3 Remote State), Infrastructure as Code

**Containers & Orchestration:** Docker, Docker Compose, Kubernetes, Helm, ArgoCD, GitOps, RBAC, HPA

**CI/CD & DevSecOps:** Jenkins, CI/CD Pipelines, Git, GitHub, Maven, SonarQube, Trivy

**Monitoring & Incident Response:** Prometheus, Grafana, Alertmanager, CloudWatch, Log Analysis, RCA

**Linux & Programming:** Linux, Bash/Shell Scripting, Python, SQL, Java 21, Spring Boot, FastAPI, MongoDB

**Training Exposure (Multi-Cloud Course):** Azure, AKS, Azure Monitor, Ansible, Datadog

## EXPERIENCE

Tech Mahindra

May 2026 – August 2026

Senior Support Associate – DevOps Support

- Troubleshoot deployment failures using **Linux**, logs, and **Git** history, enabling **accurate root-cause analysis**.
- Verified **Docker** container health and service availability after deployments, supporting **stable releases**.
- Monitored **CI/CD** runs and **Git** workflows, surfacing build failures for triage and supporting **timely releases**.

[24]7.ai

May 2024 – April 2026

Digital Interaction Executive (DevOps Support) | Interim SME & Trainer

- Validated deployments and monitored service health across **Docker** and **Linux** environments, supporting **CI/CD** and **Git/GitHub** workflows and resolving issues through log analysis to sustain **reliable availability**.
- Trained new hires as Interim SME on troubleshooting and quality standards, building **consistent team quality**.

## PROJECTS

**Production-Grade Event Platform** | AWS EKS, Terraform, Jenkins, ArgoCD, HelmIndependent Project

- Provisioned AWS VPC, IAM, ECR, and EKS with **Terraform** using an S3 remote-state backend and deployed a **3-tier** application via **ArgoCD** GitOps, achieving **reproducible, code-defined environments**.
- Hardened Kubernetes workloads deployed with **Helm** on **EKS** using **5** production safeguards (health probes, HPA, RBAC, Secrets/ConfigMaps, network policies), achieving **self-healing, least-privilege deployments**.

- Built a **5-stage Jenkins** CI pipeline covering builds, tests, **SonarQube** analysis, image creation, and **Trivy** scanning, achieving **automated quality and security gates before every image publish**.
- Implemented a **4-tool** observability stack (**Prometheus, Grafana, Alertmanager, Cloud-Watch**) and documented failure scenarios with RCA, rollback, and cost controls, achieving **runbook-driven incident response**.

**Containerized 3-Tier Application** | *Docker Compose, Bash, Jenkins*

*Independent Project*

- Containerized a **3-tier** full-stack app with **Docker Compose**, achieving **consistent environments**.
- Wrote **Bash** scripts for **7** operational tasks (Compose startup, shutdown, restart, health checks, log collection, cleanup, troubleshooting), achieving **repeatable environment operations**.

**Persistent Memory AI Agent** | *Python, FastAPI, Ollama, Qdrant*

*Independent Project*

- Built a **Python/FastAPI** memory agent with Ollama and **Qdrant**; fixed a live recall failure and reached **49 passing tests**, achieving **stable, repeatable recall**.

## EDUCATION

**B.Tech, Civil Engineering** – *Arjun College of Science and Technology, Hyderabad*

*2020 – 2024*

## CERTIFICATIONS and COURSES

- **DevOps with Multi-Cloud (AWS + Azure)** – Certificate of Completion, Frontlines EduTech Private Limited (FLM), issued August 2026 (Feb 2026 batch); hands-on training in AWS, Azure, Terraform, Kubernetes, Docker, Jenkins, CI/CD, and monitoring.
- **Award:** Most Debutant Performer 2025, [24]7.ai.
